GORLA LOVAKUMARI

Kakinada | kumarigorla09@gmail.com | +91 9100858403 | Linkedin | GitHub | LeetCode

Objective

To Passionate technology learner with practical experience in incident response and Python programming. Committed to safeguarding digital assets through secure automation, proactive threat analysis, and implementation of effective security practices.

Education

International School Of Technology And Sciences For Women - Rajanagaram Oct 2022 – Apr 2026
- **Branch:** Artificial Intelligence
- **GPA:** 8.6

Government Junior College - Tuni Jun 2020 – Apr 2022
- **Course:** MPC
- **GPA:** 8.3

ZP Girls High School - Tuni Jun 2019 - Apr 2020
- **Course:** SSC
- **GPA:** 9.6

Skills

- **Programming Languages:** Python
- **Technical Skills:** Cybersecurity, HTML, CSS, JavaScript and SQL
- **Tools:** Wireshark, Zaproxy, Splunk, and Burp Suite
- **Soft Skills:** Teamwork and Collaboration, and Effective Communication

Projects

Criminal Management System [Link] *Python, MySQL, GUI (Tkinter)*
- Developed a desktop application to manage criminal records with a secure, user-friendly GUI and MySQL database integration.

Vehicle Counter System [Link] *Python, OpenCV*
- Developed a real-time vehicle counting system using OpenCV to detect and track vehicles through video processing.

PhishCatcher Browser Extension [Link] *HTML, CSS, JavaScript, Python, AI*
- Build a simple phishing detection extension that classifies websites as safe, confidential, or dangerous.

Internships

Artificial Intelligence and Machine Learning May 2024 - Jun 2024
- Sentiment Analysis on Restaurant Reviews using NLP — gained hands-on experience in data preprocessing, model building, and sentiment classification.

Artificial Intelligence *May 2025 - Aug 2025*
- Worked on a Skin Cancer Detection System using AI techniques; gained insight into image preprocessing, model training, and accuracy evaluation for medical image classification.

Certifications

- **Fortinet Certified Associate in Cybersecurity -** Learned configuration, deployment, and management of FortiGate firewalls.**Issued By Fortinet**
- **Fortinet Certified Professional Secure Networking -** Gained skills in centralised policy management and automation.**Issued By Fortinet**
- **AI & Machine Learning -** Used NLP for the classification and model optimisation. **Issued By AICTE**
- **Python Programming –** Practised Python fundamentals.**Issued By Udemy**
- **Artificial Intelligence** - Learned the Basics of AI. **Issued By Infosys SpringBoard**
